

April 23, 2020

Atlas Copco First-quarter report 2020

Order level remained high before the COVID-19 downturn

- Order intake increased 5% to MSEK 28 039 (26 812), organic decline of 2%
- Revenues reached MSEK 25 098 (24 181), organic decline of 3%
- Adjusted operating profit, excluding items affecting comparability, decreased 3% to MSEK 5 099 (5 262), corresponding to a margin of 20.3% (21.8)
- Reported operating profit was MSEK 5 124 (5 048), corresponding to a margin of 20.4% (20.9)
- Profit before tax amounted to MSEK 5 010 (4 907)
- Basic earnings per share were SEK 3.16 (3.05)
- Operating cash flow at MSEK 3 825 (2 529)
- Return on capital employed was 29% (33)
- Proposal of postponement of the formal resolution for the second dividend installment

MSEK	January - March		
	2020	2019	
Orders received	28 039	26 812	5%
Revenues	25 098	24 181	4%
Operating profit	5 124	5 048	2%
– as a percentage of revenues	20.4	20.9

– as a percentage of revenues	20.0	20.3	
Profit for the period	3 840	3 703	4%
Basic earnings per share, SEK	3.16	3.05	
Diluted earnings per share, SEK	3.15	3.03	
Return on capital employed, %	29	33	

Near-term demand outlook

The current economic situation makes the outlook very uncertain, but demand is expected to deteriorate significantly in most industries and regions.

Previous near-term demand outlook (published January 28, 2020):

The demand for Atlas Copco's products and services is expected to be somewhat lower than the level in the fourth quarter.

Quarterly and annual financial data in Excel format can be found at:

Review of the first quarter

Market development

Order volumes in the first quarter were still on a high level, primarily due to strong order development for vacuum equipment. However, the global COVID-19 pandemic affected the demand increasingly during the quarter and order intake for most types of equipment was negatively affected. The sudden disruption and closures of customers' operations also had a negative impact on the Group's service business.

The impact of the coronavirus was first noticed in Asia, but grew in Europe and North America at the end of the quarter.

In Asia, the demand from the motor vehicle industry dropped while the demand from the semiconductor industry increased significantly. The demand for industrial compressors and related services was markedly affected by the general business disruptions in the quarter. In Europe, the generally declining demand and global economic development had a negative impact on order volumes for most product groups. Compared to the same period previous year, North America had essentially unchanged order intake, despite the deterioration at the end of the quarter.

Proposal of postponement of the formal resolution for the second dividend installment

The Board's previous assessment of the dividend capacity for 2019 remains intact and as a consequence also the communicated dividend proposal. However, due to the COVID-19 outbreak and the uncertainty it is creating, the

Board proposes that the final decision of the planned second installment of the dividend will be addressed at an Extraordinary General Meeting when the effects can be better assessed.

Revenues, profits and returns

Revenues increased 4% to MSEK 25 098 (24 181), corresponding to an organic decline of 3%. Acquisitions added 4% and currency had a positive effect of 3%.

The operating profit increased 2% to MSEK 5 124 (5 048) and includes a MSEK -30 restructuring cost in Industrial Technique business area and a change in provision for share-related long-term incentive programs, reported in Common Group Items of MSEK +55 (-192).

Adjusted operating profit decreased 3% to MSEK 5 099 (5 262), corresponding to a margin of 20.3% (21.8). The sudden drop of customer activity caused by the COVID-19 pandemic was the main reason for the lower margin.

The net currency effect compared to the previous year was positive MSEK 460, mainly due to the stronger USD. Net financial items were MSEK -114 (-141). Interest net, at MSEK -65 (-123), was lower compared to previous year, mainly due to lower effective interest rates. Other financial items were MSEK -49 (-18), including negative financial exchange differences on loans in foreign currency.

Profit before tax amounted to MSEK 5 010 (4 907), corresponding to a margin of 20.0% (20.3).

Corporate income tax amounted to MSEK -1 170 (-1 204), corresponding to an effective tax rate of 23.4% (24.5).

Profit for the period was MSEK 3 840 (3 703). Basic and diluted earnings per share were SEK 3.16 (3.05) and SEK 3.15 (3.03), respectively.

The return on capital employed during the last 12 months was 29% (33). Return on equity was 33% (36). The Group uses a weighted average cost of capital (WACC) of 8.0% as an investment and overall performance benchmark.

Operating cash flow and investments

Operating cash surplus reached MSEK 6 420 (6 234). Change in working capital was negative at MSEK -336 (-1 469). Net investments in rental equipment were MSEK -150 (-246) and net investments in property, plant and equipment were MSEK -411 (-359).

Operating cash flow (important internal KPI, but not an IFRS measurement, and hence defined on page 13) reached MSEK 3 825 (2 529).

Net indebtedness

The Group's net indebtedness amounted to MSEK 13 859 (8 525), of which MSEK 3 075 (3 294) was attributable to post-employment benefits. The Group's interest-bearing liabilities have an average maturity of 5.4 years. The net debt/EBITDA ratio was 0.5 (0.3) and the net debt/equity ratio was 24% (18).

In the quarter, Atlas Copco obtained a one-year draw-down extension of a MEUR 300 seven-year loan facility (currently unutilized) from the European Investment Bank.

Acquisition and divestment of own shares

During the quarter, 2 785 177 A shares net, were acquired for a net value of MSEK 1 024. These transactions are in accordance with mandates granted by the Annual General Meeting and relate to the Group's long-term incentive programs. See page 17.

Employees

On March 31, 2020, the number of employees was 39 611 (37 232). The number of consultants/external workforce was 3 030 (3 299). For comparable units, the total workforce increased by 657 from March 31, 2019.

Subsequent events

On April 8, at the end of the regular acceptance period of the voluntary public takeover offer, announced in February, ISRA VISION shareholders had tendered a total of 13 723 396 shares representing 62.62% of the share capital of ISRA VISION. Together with Atlas Copco's shareholding of 13.68%, Atlas Copco will control a majority of the shares in ISRA VISION upon consummation of the takeover offer and will consolidate ISRA VISION going forward. The additional acceptance period started on April 16 and will end on April 29. The offer is still subject to the approval by the Committee on Foreign Investment in the United States (CFIUS). All other offer conditions have been fulfilled.

In the beginning of April, the production in Antwerp, Belgium opened again, after a temporary stop in March, due to COVID 19, announced March 20.

Industrial compressors

The overall demand for industrial compressors decreased as customers' investment decisions were affected by the deterioration in the business climate, caused by the COVID-19 pandemic. Order volumes for all compressor sizes decreased compared to the previous year and sequentially.

Order volumes decreased in all major geographical regions.

Gas and process compressors

The order intake for gas and process compressors did not fully reach the previous year's high level. China was strong, while both North America and Europe had significantly lower order volumes.

Compressor service

Despite the sudden disruption in business activity and limitations to conducting field service at customer sites, primarily in Asia, the service business held up well. The order intake increased slightly compared to the previous year, but decreased sequentially.

Order volumes increased in all regions except Asia.

Innovation

A new medical air purifier was introduced to the market. The new product provides clean medical air and is designed to meet stringent regulatory requirements while saving up to 35% of space compared with previous models, as well as optimizing energy efficiency.

Acquisitions

The business area completed two small acquisitions in the quarter, Hydra Flow West, a US based distributor of compressor parts, and Dr. Gustav Gail Drucklufttechnik GmbH, a German distributor of industrial compressors and services. Together they have 17 employees.

Revenues and profitability

Revenues increased 2% to MSEK 11 588 (11 397), corresponding to an organic decline of 4%.

The operating profit decreased 4% to MSEK 2 520 (2 618), corresponding to a margin of 21.7% (23.0). The margin was negatively affected by lower volumes, and continued investments in digitalization and R&D, while currency had a positive effect. Return on capital employed (last 12 months) was 80% (105).

*Volume, price and mix.

Semiconductor and flat panel display equipment

The order intake for equipment to the semiconductor and flat panel industry increased compared to the previous year and sequentially. The order growth was supported primarily by continued investments in new production technologies, but to a certain extent also in new production capacity.

Compared to the previous year, the solid order growth was attributable to Asia, while volumes decreased in North America.

Industrial and scientific vacuum equipment

Order volumes for industrial and scientific vacuum equipment increased, supported primarily by increased demand from industrial coating applications.

Geographically, the order intake increased in Asia and North America, but decreased in Europe.

Vacuum service

The service business grew in the quarter with increased demand from semiconductor and flat panel display customers. Impacted by the COVID-19 pandemic and limitations in conducting field service, the demand from industrial customers decreased.

Overall, the order intake increased in Asia, was unchanged in North America and decreased in Europe.

Innovation

A new abatement system with superior emission performance was launched in the quarter. Thanks to dual abatement module design, the product can be optimized for customers' preferred service model and maximize production uptime. A system leak check function also provides enhanced safety compared to alternative products.

Acquisitions

The business area completed the acquisition of Dekker Vacuum Technologies, Inc., a US based supplier of industrial vacuum equipment and service solutions. The company has about 70 employees and had revenues of approximately MUSD 23 (MSEK 217) in 2019.

During the quarter, the business area also acquired M.C. Schroeder Equipment Co., Inc., a distributor of vacuum equipment and service solutions in USA, with eight employees.

Revenues and profitability

Revenues reached MSEK 6 159 (5 253), corresponding to an organic increase of 5%.

The operating profit increased to MSEK 1 497 (1 292), and the operating margin reached 24.3% (24.6%). The margin was negatively affected by an unfavourable sales mix, increased costs related to COVID-19 and recent acquisitions but supported by currency. Return on capital employed (last 12 months) was 22% (26%).

Orders, revenues and operating profit margin

Industrial Technique

MSEK	January - March		
	2020	2019	
Orders received	4 463	4 686	-5%
Revenues	4 193	4 547	-8%
Operating profit	799	1 008	-21%
<i>– as a percentage of revenues</i>	19.1	22.2	
Return on capital employed, %	31	39	

- **Weaker equipment demand from motor vehicle and general industry**
- **Lower order volumes for service**
- **Operating profit margin negatively affected by reduced volumes and restructuring costs**

Total, %	-5	-8
2020	4 463	4 193

*Volume, price and mix.

Motor vehicle industry

The demand from the motor vehicle industry weakened markedly, and the order volumes decreased compared to the previous year, even if some key accounts invested in long-term strategic projects. Sequentially, the order intake increased compared to the previous quarter's low level.

Geographically, and compared to the previous year, order volumes decreased in most regions.

General industry

Order volumes for industrial power tools and assembly systems from the general industry decreased significantly. The demand from most customer segments was negatively affected by the COVID-19 pandemic.

Order volumes decreased in all major regions, but more in Asia than in the others.

Service

The order intake for the service business, including maintenance and calibration services, decreased. The demand was affected by customers' reduced production levels as well as the limitations to conducting field service due to the COVID-19 pandemic.

Geographically, order volumes decreased in all major regions.

Innovation

A battery-powered quality assurance station for assembly tools for the electronics industry was launched. The new portable product allows quick and easy torque checks for a variety of tools, guides the user through the quality assurance operation, enables improved process quality, and reduces manual reporting in customers' production.

Acquisitions

Scheugenpflug AG, a German supplier of dispensing solutions, was acquired in January. At the time of the acquisition, the company had about 600 employees and had revenues of about MEUR 80 (MSEK 850) in 2018.

In February, it was announced that Atlas Copco will partner with the global machine vision specialist ISRA VISION AG through a voluntary public takeover offer. ISRA VISION is headquartered in Darmstadt, has more than 800 employees and had revenues of approximately MEUR 154 (MSEK 1 619) in the fiscal year 2018/19.

Revenues and profitability

Revenues decreased 8% to MSEK 4 193 (4 547), corresponding to an organic decline of 14%.

The operating profit decreased 21% to MSEK 799 (1 008). Adjusted for restructuring costs of MSEK -30, the margin reached 19.8% (22.7). The adjusted margin was affected by the lower revenue volumes, continued investments in digitalization and R&D, and the recent acquisition. Return on capital employed (last 12 months) was 31% (39).

Orders, revenues and operating profit margin

Power Technique

MSEK	January - March		
	2020	2019	
Orders received	3 823	4 101	-7%
Revenues	3 325	3 177	5%
Operating profit	473	524	-10%
– as a percentage of revenues	14.2	16.5	
Return on capital employed, %	25	30	

- **Weakened equipment demand and the strong Q1 2019 explains the organic order drop**
- **Orders unchanged for the specialty rental business**
- **Lower operating margin at 14.2%**

Sales bridge

MSEK	January - March	
	Orders received	Revenues
2019	4 101	3 177
Structural change, %	+2	+3
Currency, %	+2	+3
Organic*, %	-11	-1
Total, %	-7	+5
2020	3 823	3 325

*Volume, price and mix.

Equipment

Order volumes for equipment did not reach the previous year's record high level. This was primarily due to that large orders for generators and pumps from equipment rental companies in North America in 2019 were not repeated this year. Sequentially, the order intake for equipment increased supported by normal seasonal effects.

In total, the order intake decreased in all regions except Asia.

Specialty rental

The order intake for the specialty rental business was on about the same level as the previous year but decreased sequentially.

Geographically and compared to the previous year, order volumes increased in North America, were flat in Europe but decreased in Asia.

Service

Order volumes for the service business decreased, primarily due to lower demand in Asia. Order volumes in Europe and North America remained largely unchanged.

Innovation

Four new generator models meeting the EU Stage V engine emission standards were launched in the quarter. The new generators are designed with Variable Speed Drive motors, offer about five percent lower fuel consumption than the industry average, and 20 percent smaller footprint than comparable products on the market.

Revenues and profitability

Revenues increased to MSEK 3 325 (3 177), corresponding to an organic decline of 1%.

The operating profit decreased 10% to MSEK 473 (524), corresponding to a margin of 14.2% (16.5). The margin was negatively affected by underabsorption in production and service, and unfavourable sales mix. Return on capital employed (last 12 months) was 25% (30).

Orders, revenues and operating profit margin

Accounting principles

The consolidated accounts of the Atlas Copco Group are prepared in accordance with International Financial Reporting Standards (IFRS). The description of the accounting principles and definitions applied in this report are found in the annual report 2019, with the complementary description of changes described below. The interim report is prepared in accordance with IAS 34 Interim Financial Reporting. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the company's performance. For further information about these measures and how they have been calculated, please visit: <http://www.atlascopcogroup.com/investor-relations>

Risks and factors of uncertainty*Market risks*

The demand for Atlas Copco's equipment and services is affected by changes in the customers' investment and production levels. A general economic downturn, geopolitical tensions, changes in trade agreements, a widespread financial crisis and other macroeconomic disturbances may, directly or indirectly, affect the Group negatively both in terms of revenues and profitability. However, the Group's sales are well diversified with customers in many industries and countries around the world, which mitigates the risk.

Financial risks

Atlas Copco is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

Production risks

Many components are sourced from sub-suppliers. The availability is dependent on the sub-suppliers and if they have interruptions or lack capacity, this may adversely affect production. To minimize these risks, Atlas Copco has established a global network of sub-suppliers, which means that in most cases there are more than one sub-supplier that can supply a certain component. Atlas Copco is also directly and indirectly exposed to raw material prices. Cost increases for raw materials and components often coincide with strong end-customer demand and can partly be compensated for by increased sales prices.

Acquisitions

Atlas Copco has the ambition to grow all its business areas, primarily through organic growth, complemented by selected acquisitions. The integration of acquired businesses is a difficult process and it is not certain that every integration will be successful. Therefore, costs related to acquisitions can be higher and/or synergies can take longer to materialize than anticipated.

For further information, see the annual report 2019.

Risks related to the coronavirus

There is a considerable risk of a material financial impact on the Group because of the development of the coronavirus. With the high levels of uncertainty surrounding the situation and potential additional initiatives by authorities and customers, it is very difficult to predict the full financial impact that the situation may have on the Group.

As of March 31, there is no significant impact on any balance sheet items.

Forward-looking statements

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.

Atlas Copco AB

Atlas Copco AB and its subsidiaries are sometimes referred to as the Atlas Copco Group, the Group or Atlas Copco. Atlas Copco AB is also sometimes referred to as Atlas Copco. Any mentioning of the Board of Directors, the Board or the Directors refers to the Board of Directors of Atlas Copco AB.

Fair value of derivatives, cash equivalents and borrowings

The carrying value and fair value of the Group's outstanding derivatives, liquidity funds and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives, liquidity funds and other loans are based on level 2 in the fair value hierarchy. Compared to 2019, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs or assumptions. Liquidity funds, reported under cash equivalents, are according to IFRS 9 classified at fair value through profit and loss. For further information, see note 27 the 2019 annual report (<http://www.atlascopco.com/ir>).

Accounting principles

Atlas Copco AB is the ultimate Parent Company of the Atlas Copco Group. The financial statements of Atlas Copco AB have been prepared in accordance with the Swedish Annual Accounts Act and the accounting standard RFR 2, Accounting for Legal Entities. The same accounting principles and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. See also accounting principles, page 8.

Parent Company

Distribution of shares

Share capital equaled MSEK 786 (786) at the end of the period, distributed as follows:

Class of share	Shares
A shares	839 394 096
B shares	390 219 008
Total	1 229 613 104
<i>- of which A shares</i>	
<i>held by Atlas Copco</i>	<i>15 343 118</i>
<i>- of which B shares</i>	
<i>held by Atlas Copco</i>	<i>8 899</i>
Total shares outstanding, net of shares held by Atlas Copco	1 214 261 087

Performance-based personnel option plan

The Annual General Meeting 2019 approved a performance-based long-term incentive program. For Group Management and division presidents, the plan requires management's own investment in Atlas Copco shares. The intention is to cover Atlas Copco's obligation under the plan through the repurchase of the company's own shares. For further information, see www.atlascopcogroup.com/agm

Transactions in own shares

Atlas Copco has mandates to acquire and sell own shares as per below:

- Acquisition of not more than 4 250 000 series A shares, whereof a maximum of 4 150 000 may be transferred to personnel stock option holders under the performance-based stock option plan 2019.
- Acquisition of not more than 70 000 series A shares to hedge the obligation of the company to pay remuneration to Board members who have chosen to receive 50% of the remuneration in synthetic shares.

- The sale of not more than 30 000 series A shares to cover costs related to previously issued synthetic shares to Board members.
- The sale of a maximum 11 000 000 series A and B shares currently held by the company, for the purpose of covering costs of fulfilling obligations related to the option plans 2014, 2015 and 2016.
- The shares may only be acquired or sold on NASDAQ Stockholm at a price within the registered price interval at any given time.

During the first quarter 2020, 2 785 177 series A shares, net, were acquired. These transactions are in accordance with mandates granted. The company's holding of own shares at the end of the period appears in the table to the left.

Risks and factors of uncertainty

Financial risks

Atlas Copco AB is subject to currency risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which Atlas Copco AB and the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

For further information, see the 2019 annual report.

Related parties

There have been no significant changes in the relationships or transactions with related parties for the Group or Parent Company compared with the information given in the annual report 2019.

Guaranties

The 10-year MEUR 300 bond issued during the third quarter 2019 is guaranteed by the Parent Company.

Nacka, Sweden April 23, 2020
Atlas Copco AB (publ)

This is Atlas Copco

Atlas Copco Group is a world-leading provider of sustainable productivity solutions. The Group offers customers innovative compressors, air treatment systems, vacuum solutions, industrial power tools and assembly systems, and power and flow solutions. Atlas Copco develops products and services focused on productivity, energy efficiency, safety and ergonomics. The company was founded in 1873, is based in Stockholm, Sweden, and has a global reach spanning more than 180 countries. In 2019, Atlas Copco had revenues of BSEK 104 (BEUR 10) and at year end about 39 000 employees.

Business areas

Atlas Copco has four business areas. The business areas are responsible for developing their respective operations by implementing and following up on strategies and objectives to achieve sustainable, profitable growth.

The **Compressor Technique** business area provides compressed air solutions; industrial compressors, gas and process compressors and expanders, air and gas treatment equipment and air management systems. The business area has a global service network and innovates for sustainable productivity in the manufacturing, and process industries. Principal product development and manufacturing units are located in Belgium, the United States, China, India, Germany and Italy.

The **Vacuum Technique** business area provides vacuum products, exhaust management systems, valves and related products. The main markets served are semiconductor and scientific as well as a wide range of industrial segments including chemical process industries, food packaging and paper handling. The business area has a global service network and innovates for sustainable productivity in order to further improve its customers' performance. Principal product development and manufacturing units are located in the United States, Mexico, United Kingdom, Czech Republic, Germany, South Korea, China and Japan.

The **Industrial Technique** business area provides, through a global network, industrial power tools and assembly solutions, including tightening, bolting, riveting, adhesive dispensing, quality assurance products, material removal, software and service. The business area innovates for sustainable productivity for customers in the automotive and general industries, maintenance and vehicle service. Principal product development and manufacturing units are located in Sweden, Germany, United States, United Kingdom, France, Japan and Hungary.

The **Power Technique** business area provides air, power and flow solutions through products such as mobile compressors, pumps, light towers and generators, along with a number of complementary products. It also offers specialty rental and provides services through a dedicated, global network. Guided by a forward-thinking approach to innovation, Power Technique provides sustainable productivity solutions across multiple industries, including construction, manufacturing, oil and gas and exploration drilling. Principal product development and manufacturing units are located in Belgium, Spain, the United States, China and India.

Vision, mission and strategy

The Atlas Copco Group's vision is to become and remain First in Mind—First in Choice of its customers and other principal stakeholders. The mission is to achieve sustainable, profitable growth. Sustainability plays an important role in Atlas Copco's vision and it is an integral aspect of the Group's mission. An integrated sustainability strategy, backed by ambitious goals, helps the company deliver greater value to all its stakeholders in a way that is economically, environmentally and socially responsible.
