

Atlas Copco

Q1 results

April 23, 2020

Q1 in brief

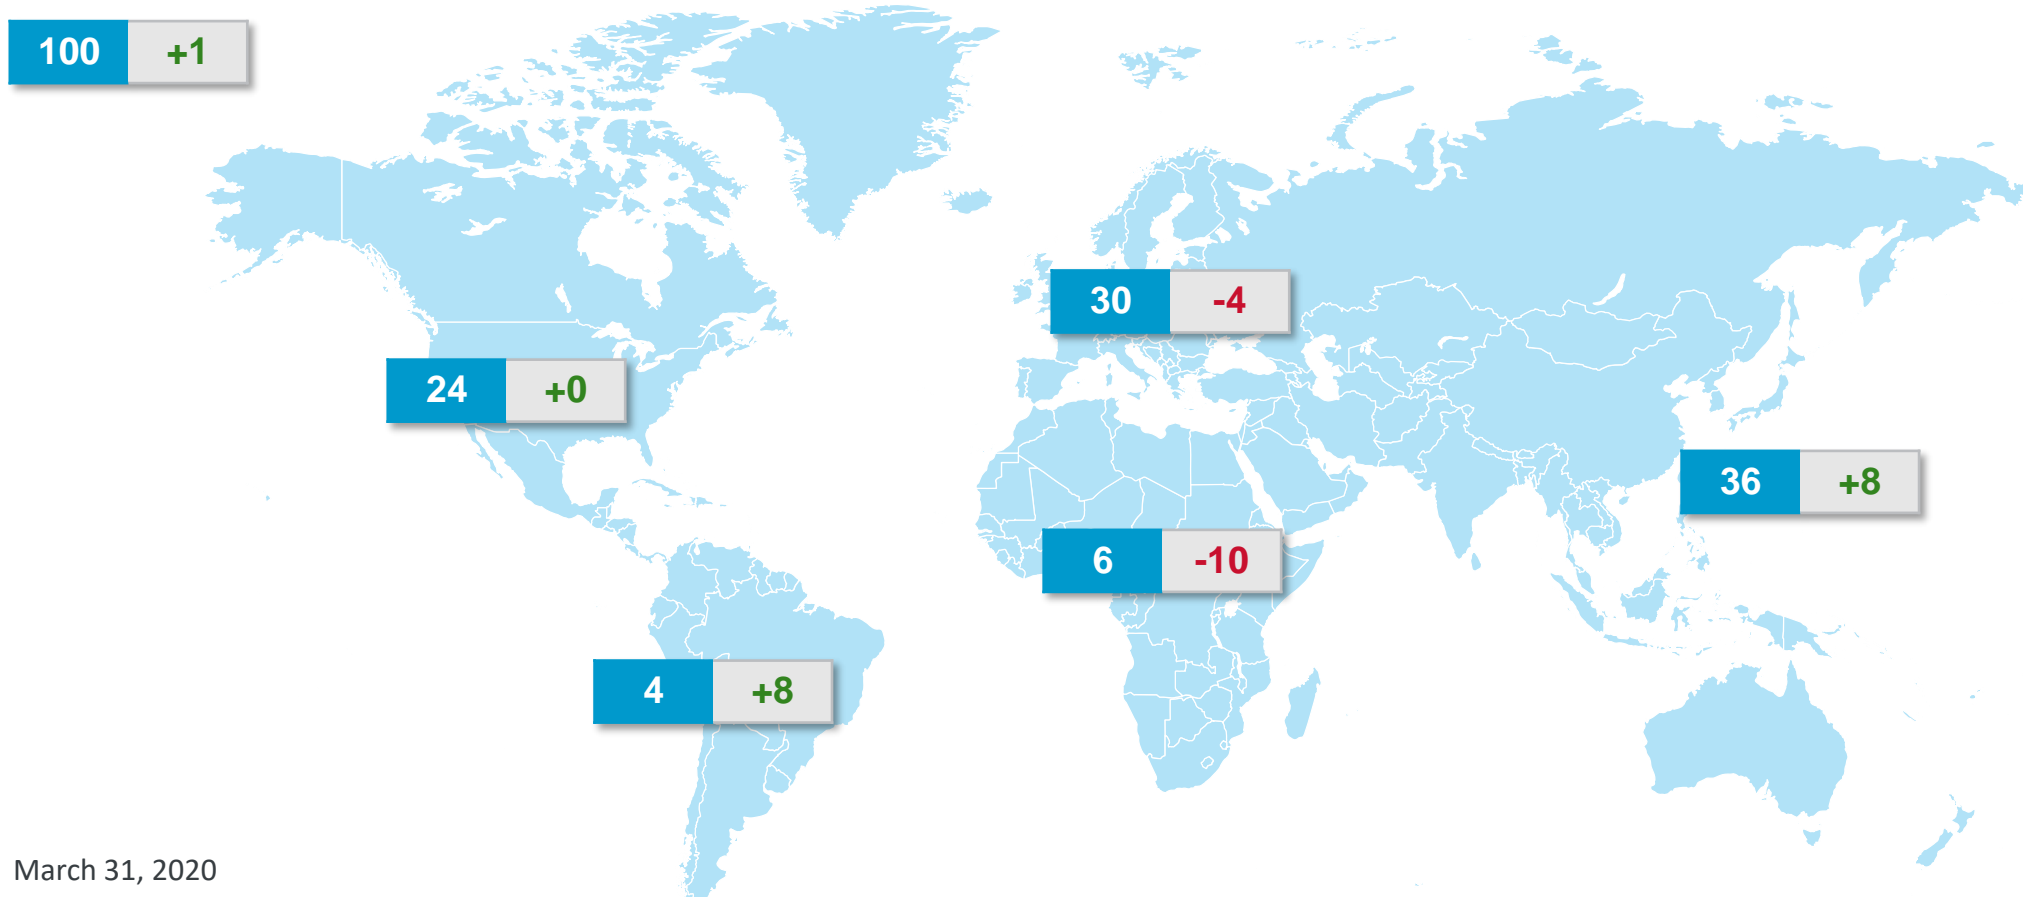

- High order levels until COVID-19 hit the market
 - Orders decreased organically for most types of equipment
 - Vacuum equipment being the exception due to strong growth in Asia
 - Order growth for service, despite sudden disruption in customers' operations
- Sustained healthy profitability level and solid operating cash flow
- Proposal of postponement of the decision for the second dividend installment
- COVID-19

Q1 figures in summary

- Orders received at MSEK 28 039 (26 812), organic decline of 2%
- Revenues at MSEK 25 098 (24 181), organic decline of 3%
- Reported operating profit was MSEK 5 124 (5 048), margin at 20.4% (20.9)
 - Adjusted operating profit at 5 099 (5 262), margin at 20.3% (21.8)
- Profit for the period, MSEK 3 840 (3 703)
- Basic earnings per share at SEK 3.16 (3.05)
- Operating cash flow at MSEK 3 825 (2 529)
- Return on capital employed 29% (33)

Orders by business area and organic order growth*

* Share of Group orders received 12 months ending March 2020.
3 month organic order growth compared to previous year.

Compressor Technique

- Organic order decline of 3%
 - Equipment orders down
 - Slight growth for service
- Revenues decreased 4% organically
- Operating profit margin at 21.7% (23.0)
 - Negatively affected by lower volumes and continued investments in digitalization and R&D
- ROCE at 80% (105)

Innovation:

A new energy-efficient medical air purifier for stringent requirements with up to 35% space savings compared to previous models.

Vacuum Technique

- Record orders, organic growth of 13%
 - Strong growth from the semiconductor and electronics industries
 - Service volumes up driven by the semiconductor industry
- Revenues increased 5% organically
- Operating profit margin at 24.3% (24.6)
 - Negatively affected by sales mix, COVID-19 related costs and acquisitions, but supported by currency
- ROCE at 22% (26)

Innovation:

A new abatement system with superior emission performance and module design for optimized service and production uptime.

Industrial Technique

- Organic order decline of 11%
 - Lower equipment demand from motor vehicle and general industry
 - Service down, affected by reduced production levels
- Revenues down 14% organically
- Operating profit margin at 19.1% (22.2)
 - Adjusted margin at 19.8% (22.7), affected by the lower revenue volumes, continued investments in digitalization and R&D, and the recent acquisition
- ROCE at 31% (39)
- Acquisition of Scheugenpflug AG, and announced public takeover offer of ISRA VISION AG

Innovation:

A new portable quality assurance station for assembly tools allowing quick and easy torque checks and guidance for improved process quality in customers' production.

Power Technique

- Orders decreased 11% organically
 - Equipment orders down vs. record Q1 2019 level
 - Specialty rental flat and decreased volumes for service
- Revenues down 1% organically
- Operating profit margin at 14.2% (16.5)
 - Negatively affected by sales mix and underabsorption in production and service
- ROCE at 25% (30)

Innovation:

A new range of EU stage V compliant generators with variable speed motors offering about 5% lower fuel consumption than the industry average and 20% smaller footprint than comparable products.

Dividend

- The Board's previous assessment of the dividend capacity for 2019 remains intact
 - Two installments: SEK 3.50 in April and SEK 3.50 in October
- The final decision about the proposed second installment (SEK 3.50) will be postponed until the consequences of the COVID-19 pandemic can be better assessed

Near-term outlook

The current economic situation makes the outlook very uncertain, but demand is expected to deteriorate significantly in most industries and regions.

Forward looking statements

“Some statements herein are forward-looking and the actual outcome could be materially different. In addition to the factors explicitly commented upon, the actual outcome could be materially and adversely affected by other factors such as the effect of economic conditions, exchange-rate and interest-rate movements, political risks, the impact of competing products and their pricing, product development, commercialization and technological difficulties, supply disturbances, and major customer credit losses.”
